

## POSTERS (FET@European Parliament 2010)

April 2010: MEGAFRAME was selected as one of "12 outstanding Commission-funded FET projects" showcased at the European Parliament in Strasbourg within the Science beyond Fiction exhibition, 20-21 April 2010, organised to introduce Members of the European Parliament to Future and Emerging Technologies (FET). E. Charbon [and J. Arit] attended and presented a 3 part poster (poster 1 - poster 2 - poster 3). [NB: the most important differences with respect to the FET09 posters below are in poster 3.)
